

March 23rd, 2020

Both DG Foods facilities in Louisiana and Mississippi are open and fully operating. As a supplier of quality food products, we recognize the importance of people having access to safe food as we collectively face the COVID-19 challenge.

Although Governor Edwards, in Louisiana has declared a statewide stay at home order to further fight the spread of COVID-19, and Governor Reeves, in Mississippi is asking people to stay home when possible, DG Foods Employees are considered “**Essential Personnel**” and therefore exempt from any “Stay At Home” mandate for travel to and from work. The United States Government has identified the food supply as a Critical Infrastructure Industry and has stated ***we have a special responsibility to maintain normal work schedules on behalf of the Nation.***

Therefore, DG Foods ***must*** continue normal operations and we expect everyone to support our efforts by continuing to work their normal schedules.

We are continually monitoring this situation in our communities and have implemented additional sanitation efforts, visitor restrictions and health protocols to protect the health and safety of all our Teams.

We extend our deepest sympathies to those affected by this outbreak and deeply appreciate all the efforts of our health care professionals serving on the front lines.

We also want to thank everyone who is helping to keep food on our tables including producers, retailers, inspectors and truckers.

DG Foods is committed to our communities and employees and our Country through this challenging time.

Sincerely,

Bill Bryant
General Manager
